# transport system planning

"I'm visualizing a **"tool for transport system planning"**
because I want to show
"hypothetical cause and effect of urban planning choice"
in order
"to reduce capital required to conduct feasibility studies to kickstart an infrastructure project"

travel itinerary planning

"I'm visualizing a **"Visual based travel itinerary planner"**
because I want to show
"personalized travel plans by visualizing and optimizing travel routes, costs, and experiences"
in order
"to save time, effort, and money for travelers while ensuring a seamless and enjoyable travel experience"

holistic education streaming

"I'm visualizing a **"ability grouping tool for the education system"**
because I want to show
"an evidence-based understanding of student abilities and optimal grouping strategies for collaborative learning"
in order
"to enhance learning outcomes, reduce inequities, and optimize resource allocation in educational institutions"
